CERTIFICATE OF ANALYSIS

Important Note: Centrifuge before opening to ensure complete recovery of vial contents.

Catalog #: A07305B **Lot #:** 9G19917

Description: Ribosomal P Antigen

Source: Rabbit Thymus from North American origin.

Format: Affinity Purified, Liquid

Purification: Purified from rabbit thymus through the use of immobilized human anti-Ribosomal P immune globulins. Other antigens (Sm, RNP, Scl-70, SSA(Ro), SSB(La), Jo-1) are not detected with ELISA assays.

Concentration: 0.954 mg/mL
One unit of activity is defined as the amount of antigen that will generate an absorbance of 1.2 when assayed using standard procedures for enzyme Immunoassay. Activity will vary with assay conditions.

Buffer: 0.01 M Tris, 0.53 M Sodium Chloride.

Preservative: 0.02% Sodium Azide

Applications: Recommended for use in standard solid phase Immunoassays. Each laboratory should determine an optimum working titer for use in its particular application. Other applications have not been tested but use in such assays should not necessarily be excluded.

Storage: Product unstable above 0°C. Aliquot and store at $-70^{\circ}\text{C} \pm 10^{\circ}\text{C}$. Avoid multiple freeze/thaw cycles.

Inactivation: Not Applicable

Safety Note(s): Refer to the appropriate Safety Data Sheet (SDS) for additional information.
