

## **CERTIFICATE OF ANALYSIS**

Important Note:	Centrifuge before opening to ensure complete recovery of vial contents.		
Catalog #:	R29130	Lot #:	3H21410
Description:	HSV-2 Ag (G Strain) Herpes Simplex Virus Type 2 (HSV-2) (G Strain)		
Source:	Vero Cell Culture Strain: G (ATCC VR-734)		
Format:	Purified, Liquid	Exp. Date:	30 JUL 2020
Purification:	Virus extracted from infected cells is concentrated by ultracentrifugation and then partially purified by centrifugation through sucrose. The antigen is resuspended and homogenized. The resulting antigen preparation consists of a high concentration of virus and viral components as well as some cellular material.		
Concentration:	1.10 mg/mL (Bradford)		
Buffer:	0.1 M Glycine, pH 9.5		
Preservative:	None		
Applications:	Suitable for use in ELISA. Each laboratory should determine an optimum working titer for use in its particular application. Other applications have not been tested but use in such assays should not necessarily be excluded.		
Storage:	Store at -20°C to -80°C. Avoid multiple freeze/thaw cycles.		
Inactivation:	Beta-propiolactone treatment. Confirmation by attempted g	rowth under original culture	conditions.
